Look what Gran and Grandad gave me for my birthday yesterday – an M54 robot! It was just what I wanted. It comes in about 20 pieces, but it only took 15 minutes for Dad and me to put them together; it wasn't hard at all. And it's easy – and fun – to operate: it can move in all directions – you choose the speed – and, if something blocks its way, it stops and turns. You can guide it with your computer or with a smartphone if you download a special app, and you can programme it to do lots of things – it can even play music!

What do you know about Ryan?
