From: George Snagg To: Colin Hemsworth

Dear Colin,

Ever since you left us ten years ago to join Carston Rovers, I've been following your career with great interest and, when you were picked to play for England last month, I was over the moon. I've been going around telling everyone I was your very first coach!

But you've probably guessed I'm not writing just to congratulate you, but to ask for a favour. I'm sure you get emails every day asking you to do all sorts of things: attend events, open supermarkets or just give money. I expect most of them end up in the trash, but I hope that won't happen to this one, because I know how much you enjoyed your schooldays here.

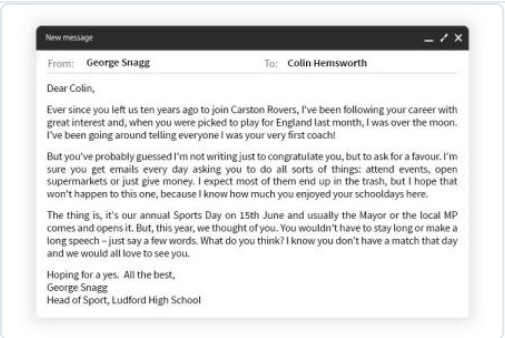

The thing is, it's our annual Sports Day on 15th June and usually the Mayor or the local MP comes and opens it. But, this year, we thought of you. You wouldn't have to stay long or make a long speech – just say a few words. What do you think? I know you don't have a match that day and we would all love to see you.

Hoping for a yes. All the best,
George Snagg
Head of Sport, Ludford High School

We know that Colin ... .

- used to teach at Ludford High School
- **plays sport at a high level** ✓
- was George's coach in the past
- is going to answer this email

"I've found another one!" shouted Jake, the new volunteer. "It was underneath the other two. He or she must have been buried some time before the others."
"She!" said Petra, coming over and examining the bones. She was only in her first year of studying forensic science, but already knew a few things.
"Now that's odd," said Jake, removing a diamond ring from one of the skeleton's fingers.
"What's odd about it?" said Petra. "We've found bits of jewellery before."
"But not like this, surely? This is a cut diamond. I'm sure the Romans didn't know how to do that," said Jake.
"Let me look," said Maria, joining them. "Oh!" she exclaimed. "It's just like Gemma's engagement ring."
"Who's Gemma? asked Jake.
"She helped out last year," said Maria. "But she left without a word and we haven't heard from her since."
"She must have dropped it," suggested Petra.
"No, she would have said something," said Maria. Then she suddenly exclaimed, "Oh no! It can't be..."
Jake knew what Maria was thinking. "No, of course not!" he said, "This woman was buried over 2,000 years ago."

What do we know about Jake, Petra and Maria?

- Jake is getting paid for working on the site.
- **At least one of the three is a student.** ✓
- They are all excavating some Medieval ruins.
- Maria is a new volunteer this year.
