44 Who is Phil?

Groundhog Day is an unusual tradition celebrated in the United States and Canada on February 2nd. It is based on an old German legend that says an animal can predict how long winter will last. The most well known celebration takes place in the small town of Punxsutawney in Pennsylvania, USA. Groundhog Day has been celebrated there since 1887.

A groundhog

The star of the ceremony is a groundhog called "Punxsutawney Phil". If Phil comes out of his home and sees his shadow on the ground, he will return indoors. This means there will be six more weeks of winter. However, if he comes out and stays outside, it means there will be an early spring.

Phil's home

Phil's predictions aren't often correct but this doesn't stop people from enjoying the show. In 2024, 40,000 people travelled to Punxsutawney to attend the Groundhog Day celebrations. The popularity of the event increased after the 1993 film *Groundhog Day*, which is set in the town on the day of the ceremony.
