Look what Gran and Grandad gave me for my birthday yesterday – an M54 robot! It was just what I wanted. It comes in about 20 pieces, but it only took 15 minutes for Dad and me to put them together; it wasn't hard at all. And it's easy – and fun – to operate: it can move in all directions – you choose the speed – and, if something blocks its way, it stops and turns. You can guide it with your computer or with a smartphone if you download a special app, and you can programme it to do lots of things – it can even play music!

What do you know about Ryan?

He didn't want a robot for his birthday.

He bought a robot for his grandparents.

**He got a great birthday present from his grandparents.**

He's going to get a robot for his birthday.

Find sentence that isn't true.

The M54 can sense when there is an obstacle in its way.

Playing music is not one of the M54's basic functions.

With a special app, you can control the M54 with your smartphone.

**In order to operate the M54, a smartphone is essential.**

44

**Local cheese wins prize!**

Last Saturday, the fourth annual international cheese festival took place in Westbridge High Street, which was closed to traffic all day. 100 cheesemakers from all over Europe came to show their cheeses and to compete for a prize for the best new cheese. No British cheese has won a prize before, but this year, Thomas Ryland's "blue Devonshire" came second, behind an Italian cheese. Mr Ryland is a local farmer who has lived in Devonshire all his life but only started making cheese five years ago.

What's he going to do with his £500 prize? "It'll pay for a trip to Europe," he said. "I'm going to try and sell my cheese on the continent. My cheese is as good as anything they can produce." Good luck, Mr Ryland!
